- Figma (Basics)
- Adobe Photoshop (Basics)

LANGUAGES

- English
- Hindi

SUMMARY

I have gained hands-on knowledge in HTML, CSS, JavaScript and React Js, creating responsive and user-friendly web interfaces. I have worked on several projects, collaborating with team members to implement design specifications and improve website functionality. My skills in using frameworks such as React and version control systems like Git have been developed. I have also learned to debug and optimize code for performance. Additionally, I have experience in cross-browser compatibility and ensuring websites are accessible and meet industry standards.

PROJECTS

- **Weather app**
  https://real-time-weather-1.netlify.app/

  This weather app is created using React.js and Tailwind CSS. It shows real-time weather forecasts with an integrated map using Mapbox and the OpenWeather API.

- **Expence Tracker**
  https://abhay6397.github.io/Expense-tracker/

  An income-expense tracker using HTML, CSS, and JavaScript, completely responsive. It will keep a record of all your transactions using local storage.

- **Interior designing website UI**
  https://abhay6397.github.io/sundown-studio/

  An UI Clone of an interior designing website using HTLM, CSS, JavaScript.
